

**REMARKS**

Applicants request entry of amendments after allowance to correct minor typographical errors that do not affect the intended scope of the claimed invention. In particular, Applicants have amended Claims 15 and 16 so that a proviso at the end of each claim refers only to embodiments in which X represents NH (but not NMe) in a manner consistent with the general definition of X in these claims (where X is defined as being O or NH but not NMe as in the base claim). Because these amendments concern formal matters not affecting the scope of the claims, Applicants respectfully request that the amendments after allowance be entered and that the claims proceed to issuance.

Respectfully submitted,

By Richard E. Henderson
